Weather permitted more fishermen to get out and hunt. Striper action continues to be some what tough for most who are in search of the line siders but this week panned out for numerous anglers throwing top waters, swim baits and even drop shotting larger plastics in deeper waters. Reports of large schools of fish state they are holding in 60 to 100 feet of water but schoolies have been closer to the surface in the first light hours and the over cast conditions have helped to keep that bite alive into the late morning , early afternoon hours. Most reported striper have been in he 4 to 7 pound range with a few confirmed at just that. LMB have also been reported in larger numbers as well. Many anglers have hooked into limits (5) during the morning hours with the bite slowing until the late afternoon when they come back up. Most LMB metered in the afternoon have been in the 20 to 35 foot range as boaters report but they are on the surface to 10-15 feet in the mornings and later in the day. Average LMB reported has been a consistent 1.5 to 3 pounds with a few in the 5-8 pound range. All LMB were released and unconfirmed other than digital camera photos.

**ANGLER NAME: Kent Scrapper DATE: 2/17**  
**HOME TOWN: Saugus SPECIES: LMB**  
**WIEGHT OF STRINGER :unk NUMBER CAUGHT: 3 WEIGHT OF LARGEST FISH: 1.5**  
**BAIT/ LURE USED: Plastics LOCATION CAUGHT: west ramp area**
